INTRODUCING ULTRADREAM™

Sleep plays an important role in every aspect of our physical health. Ongoing sleep deficiency is linked to an increased risk in a host of health issues. Studies show that the gap between getting enough sleep and getting too little sleep can affect your mood, your weight, and much more. UltraDream is a breakthrough for those who desire to enrich the quality of their sleep. By combining our Sleep Support blend containing well known sleep aids GABA and Melatonin with our proprietary Mimetix formula, UltraDream taps into the ECS where it helps settle you into a gentle sleep and promotes a deep restfulness. Unlike other sleep aids, UltraDream contains no inconvenient side effects. You'll awake each morning ready to take on your day. Discover the difference UltraDream can make tonight.

THE MIMETIX™ FORMULA

Typically, the conversation about the endocannabinoid system (ECS) revolves around phytocannabinoids alone. Mimetix takes ECS health to a whole new level. Mimetix is our full spectrum complex that includes:

phytocannabinoid mimics, terpenes, beta-caryophyllene, alkamides, and cannabimimetics. Cannabimimetics are defined as compounds that have the same pharmacological impact on the ECS as the hemp plant. When combined in a full spectrum, water-soluble format the results are extraordinary.

THE SYSTEM

The endocannabinoid system is ever present in the human body. This complex network impacts many areas of health and is most abundant in the brain and immune system. The ECS has been shown to be integral in body processes such as sleep, relaxation, and cognitive function. Through the production and use of natural endocannabinoids, the body regulates these systems. When production becomes slowed or impaired, cannabimimetics and phytocannabinoids, can supplement what the body may be lacking.

EXCLUSIVE TECHNOLOGY

As we all know, oil and water don't mix. This can be a challenge when taking oil-based supplements. UltraCell turns oil-based compounds into a water-soluble format. Our exclusive technology has been proven in a clinical study to make oil supplements up to 94% bioavailable. Thanks to powerful technology, all of the benefits of UltraDream are available to you at peak capacity.
